

# IMPORTANT

As a real estate agent, you are targeted by Canada Revenue Agency, for not logging your business use of your vehicle.

**MileIQ** is a very simple phone app that you can use every day, to assign your drives! At the end of the year, you go onto their website and print off your business drives for tax purposes (and HST input tax credits).

To set up an account, go to the website to register:

<https://www.mileiq.com/ca>

On your phone, swipe left for personal drives, swipe right for business! You can even specify reason for drives i.e. meeting with client, running errands, networking etc.

My gift to you - a discount of 20%, using this code:

**ADOU204A**

Thanks, Annette
